<u>Title: 'The Art of The 'Jaacque-abi-v3.0' - Original Mathematics and Theory Done by done by Carl</u> Gustav Jacob Jacobiabi (Dec 1804 – Feb 1851)

Note: Please see the work done by Pierre-Simon Laplace, and how he configures the integral to autonomate 2 or more continuous processes with the 'Laplacian Triplə Vector Product'.

Please also work through the integral in comparison to the geometry of the surface location in 2Space. The integral finds the orthogonal vectors in the 3-dsnapshot of 4-dspace.

Na III e-: Matthew J. Joseph McKay. Assistante-II: Jacquiline Anne McKay. Auriat 'Jacobi' Assistante-I: Christopher Nicolas McKay.
